

BYNOYLT BINOCULAR

MODEL SEARANGER III, 7x50 with COMPASS

Description

An optically improved version of the original Searanger II. A high specification, fully waterproof binocular with built-in compass. The perfect maritime companion offered in a stylish design with a non-slip blue rubber housing and silver eyepiece adjusters. The combination of binoculars, integrated illuminated compass and built-in height/distance scale makes this instrument a superb aid to navigation. The SeaRanger floats and comes complete with bright yellow floating belt/strap, making it easy to retrieve in dark seas. The Searanger III has larger diameter eyepiece lenses allowing more light in resulting in a clearer, high quality image.

The Searanger III is by used mariners and by professional/commercial end-users. It has been proven in such areas as CBRN and Hazmat type applications. The unit can be washed or showered. Also proved to be useable with CBRN head gear/respirators.
