

# BRIGHT STAR

## INTRODUCING LIGHTHAWK LED LANTERN

**BURN TIME 7 hours BULB LIFE 30,000+ hours**

Maintaining all of the features of the Lighthawk MAX, Bright Star has developed an LED model that uses State-of-the-art LED technology. Its beam exhibits a sharp & crisp light output that is easy on the eyes, throws light at a distance unmatched by any other on the market & provides longer burn time making it a great lighting source to have for those longer-than-expected situations !

**Rugged, Reliable, Super Bright - the new leader in LED**

The new Lighthawk LED is a super bright, touch, chemical & heat resistant lantern. Our "State of the Art" LED technology produces a piercing beam of usable light. Rugged, reliable & the brightest lantern on the market.
