

# BYNOYLT BINOCULARS

## THE NEW SEARANGER IV, 7x50 with DIGITAL COMPASS

The new Searanger IV offers the same excellent optical quality of the Searanger III – waterproof, nitrogen gas filled, BAK-4 prisms and large eyepieces.

PLUS - a new high-tech digital compass.

### SEARANGER IV BINOCULAR

### SEARANGER IV Digital Display

The compass of the **SEARANGER IV** shows the compass course and bearing (tolerance +/-3°) digitally in steps of 1°. Next to this display the LED screen shows a graphic view of the 8 compass points.

The compass measures the forward and backward angle of inclination of the binocular (max 60°) and presents this measurement on the LED screen.

The binocular can be used under almost every angle of inclination.  
(Forward and backward 60°, sideways 45°).
