

SPEEDTECH INSTRUMENTS

PRODUCT EE-1 ECO EDGE

Compass, Altimeter, Barometer and more !

The Eco EDGE is Speedtech's newly designed weather station offering fingertip access to major weather measurements. The "EDGE" factor is the scientific formula that predicts animal activity. With unique features such as compass and sun/moon positions, the Eco EDGE is surely an instrument for every outdoor enthusiast.

Patented EDGE technology makes Solunar Tables obsolete

Solunar influences, as well as barometric pressure and temperatures, largely determine the activities of animals, birds and fish. This hand-held, scientific instrument has patented technology that predicts the best times to go nature viewing. Add to that accurate weather/storm predictions, a world-class altimeter/barometer, digital compass and 95 year almanac and you have a very useful product for the outdoor enthusiast.

FEATURES

- Temperature & barometric pressure
- Altimeter to 30,000 feet (9,000 meters)
- Digital Compass
- 16-hr pressure history bar graph
- Accurate 12-24 hour weather forecast
- Severe Weather audio alarm
- Precise sun rise/set times and position making solunar tables obsolete
- Animal activity scale
- Time alarm
- Backlit display

SPECIFICATIONS

ACCURACY:	Temperature: +/- 2°F Barometer =/-.025 inHg Altitude: +/- 24 feet Sunrise / Sunset +/- 4 mins Moonrise / Moonset +/- 15 mins
POWER:	2 x CR1202 Lithium batteries (included)
DIMENSION:	3.8" x 2.6" x 0.7" / 97.2 x 66 x 17 mm
WEIGHT:	5 oz
