

SPEEDTECH INSTRUMENTS

PRODUCT SM-28 SKYMASTER

The Skymaster Weather Meter gives you advanced weather information in a convenient pocket-knife design, that will fit in the palm of your hand ! A remarkable instrument giving you wind speed, temperature, humidity, dewpoint, heat index, storm alarm, altitude and a 16 hour recording barometer – all in one slim casing. The Skymaster will particularly appeal to the outdoor professional who needs an accurate, rugged and portable measuring instrument. The unit is water-resistant, floats, and is threaded for tripod mounting.

FEATURES

- Windspeed (Current, Avg, & Max)
 - Temp w/ Windchill & Heat Index
 - Relative Humidity w Dewpoint
 - Barometric Pressure & 16-Hr History Bar Graph
 - Severe Storm Audio Alarm
 - Altitude
 - Pocket-knife design
 - Replaceable 400 hour battery
 - Replaceable plastic impeller
 - High visibility protective case
 - Comes with lanyard
 - Threaded for tripod mounting
 - Floats
 - Water resistant
-

SPECIFICATION

ACCURACY:	+/- 3% Windspeed; +/- 2 F° Temp/Windchill; +/-3% rH; +/- 3°F Dew Point; +/- 3°F Heat Index; +/-3 hpa Barometric pressure.
RANGES:	Wind .4-89 MPH; Temp 32° to +122°F; Windchill -22° to +158°F; Dew Point -31.2° to +155.8°F ; Heat Index +69.8 to +155.8°F; rH 0-99%; Barometer 400-1100 hpa; Altitude -500 to 9000 metres.
OPTIONAL UNITS:	Knots, MPH, KPH, M/Sec, Ft/Min, Beaufort Scale - F or C; hpa/mb or inHg
RESPONSE TIMES:	Current Windspeed; Ave. over 2 sec; Ave. Wind 5 sec; Max Wind 2 sec gust; Temp/windchill/rH/dew point 1 min; 15 min sampling Barometer
POWER:	CR2032 Lithium battery (included)
MEASURES:	5.9 x 2.1 x .85 inches
WEIGHS:	3.9 oz
